## Growth

### Pastor's Paragraphs

In May we begin a tour through the book of Genesis during Sunday morning worship. Unlike Matthew, we're not going to read the whole thing. Genesis is among the most misunderstood books of the Bible. As you know, Genesis 1 contains an account of God's actions in creation. The chapter breaks it down into seven days. For over a century people have argued about how this account could be possible. Many reject it as outright fantasy. Some try to harmonize it with scientific theories, saying that days aren't intended to be literal days. And of course some say that if the Bible says it, it must be literally true. Therefore creation happened in six literal days, with God resting on the seventh.

The problem with all these ideas is that they overlook the internal consistencies within the text itself! Even a quick reading shows that the Sun isn't created until Day 4, but there've been cycles of darkness and light since Day 1. Then there is also the thorny issue that Genesis 2 contains yet another creation account. But that one doesn't synchronize with Genesis 1 at all. Things are created in a completely different order! Forget trying to synchronize Genesis 1 with evolutionary theory, it doesn't even agree with the very next chapter!

If you've been in worship as we read through Matthew you learned that Matthew writes using very complex patterns typical of the ancient Hebrews. It stands to reason that Genesis is the same way. It's no accident that Genesis 1 does not sync with Genesis 2. While the contradictions aren't outright deliberate, the creator of Genesis certainly knew they existed.

As we explore Genesis I invite you to open your mind to a completely new way of understanding the Bible – or perhaps I should say, open your mind to a very ancient

way of understanding the Bible. God is too big and too complex to be contained in mere words. Human logic is too limited to understand God. In Genesis we'll discover the ways the ancient Hebrews developed to describe the indescribable. Even a non-believing critic has to admit it is ingenious. For us who see these writings as the inspiration of the Holy Spirit, the things they reveal about God are simply amazing.

Come and experience Genesis on its own terms. And discover what it wants to teach you about God, about what God has done, and about what it means to be chosen by God to do important things.

Blessings,  
Pastor Jon
